

Transmetteur de température, humidité relative, pression atmosphérique - sortie RS385

code: T7310

Température ambiante, humidité, transmetteur de pression atmosphérique. Utilisation extérieure et intérieure.
 Capteurs intégrés d'humidité relative, de température et de pression atmosphérique. Les valeurs mesurées sont également converties en une autre interprétation de l'humidité: température du point de rosée, humidité absolue, humidité spécifique, rapport de mélange, enthalpie spécifique.
